ASX MEDIA RELEASE

7 October 2008

MONADELPHOUS AWARDED \$140 MILLION MULTI-DISCIPLINARY PACKAGE IN WA

Perth: Monadelphous Group Limited (**ASX: MND**) today announced it has received a notice of award from Worsley Alumina for structural, mechanical, piping, electrical and instrumentation (SMPE&I) works as part of its Efficiency and Growth Expansion Project (E&G Project) in Western Australia (WA).

The A\$2.5 billion Worsley Alumina E&G Project aims to increase alumina refinery capacity from 3.5 to 4.6 million tonnes per annum (Mtpa), Monadelphous will undertake a multi-disciplinary package (SMPE&I) of works in Area 2 valued at approximately \$140 million. The contract will involve pre-construction services, pre-assembly of pre-defined modular items, erection and testing of the structural, mechanical, piping, electrical and instrumentation works within Area 2 of the Worsley E&G Project.

Monadelphous Group Managing Director, Rob Velletri said that the proposed works follow on from a long and successful history of works associated with Worsley Alumina including a recent three year contract award for capital project services through our Maintenance and Industrial Services division (M&IS).

“It is also a positive reinforcement of both our ability to seamlessly undertake large scale, multi-disciplinary engineering construction projects and of our decision to expand MIE’s operations in WA last year,” he said.

“We look forward to continuing our long term association with Worsley Alumina and associated partners involved with this expansion project,” added Mr Velletri.

Pre-construction works have been approved and will commence immediately with completion of the contracted works scheduled for the third quarter of calendar 2010.
