Dear Sir/Madam

Re: Monadelphous awarded \$60 million facilities management contract for Gorgon Project

Please find attached a copy of the media release to be issued today by Monadelphous Group Limited.

Yours sincerely

PHILIP TRUEMAN
Company Secretary

ASX MEDIA RELEASE
19 November 2009

MONADELPHOUS AWARDED \$60 MILLION FACILITIES MANAGEMENT CONTRACT FOR GORGON PROJECT

Perth: Leading Australian engineering company Monadelphous Group Limited (**ASX: MND**) (“Monadelphous” or “the company”) today announced that it has secured a \$AUD60 million facilities management services contract associated with the construction of the Gorgon Project on Barrow Island in Western Australia.

The initial term of the contract is for three years, with the option for two further one-year extensions. Commencement on site is scheduled for February 2010.

Monadelphous, through their Maintenance and Industrial Services division, will provide management, operation and maintenance of construction facilities and utilities for the Gorgon Project.

The scope of services includes operating and maintaining the water and waste water treatment plants and the power generation and distribution systems as well as management and maintenance of the accommodation facilities and various buildings, vehicles, plant and equipment.

Commenting on the new contract, Monadelphous Managing Director Rob Velletri said, “This win reinforces our capability as a successful supplier of facility management and maintenance services on Barrow Island.”

“Monadelphous has a long track record of service on the island, having successfully provided multi-disciplinary maintenance and capital works services on Barrow Island since 2001”, said Mr Velletri.

The Gorgon Project is a joint venture between the Australian subsidiaries of Chevron (Operator), ExxonMobil and Shell, to develop the Greater Gorgon gas fields, located between 130km and 200km off the north-west coast of Western Australia. The Greater Gorgon gas fields contain resources of about 40 trillion cubic feet of gas, Australia’s largest-known gas resource.
