New Major Contract Wins

Monadelphous Group Ltd (MND) is pleased to announce that the company has recently secured new major construction and maintenance services contracts, valued at approximately \$70 million.

Recently awarded was the contract for Structural, Mechanical and Piping Installation Works for Primary & Secondary Crushing by Hamersley Iron Pty Ltd for the Yandi Junction South East project. This follows on from previous construction projects associated with the expansion of iron ore facilities at Yandicoogina mine in Western Australia.

The company has also been awarded the Rail Reveal #3 project by the Central Queensland Ports Authority (CQPA). As part of an alliance with CQPA, Monadelphous are constructing the new Third Rail Reveal Station, including five transfer conveyors and tie-ins to the existing conveyors.

Both contracts are due for completion in the final quarter of calendar year 2006.

Following on from these wins Monadelphous also recently secured a two year maintenance support services contract for the recently commissioned Darwin LNG facility. The contract is with ConocoPhillips Pipeline Australia Pty Ltd as agent for and on behalf of Darwin LNG Pty Ltd. The multidisciplinary maintenance contract involves the management of all aspects of mechanical, piping, electrical, instrumentation and civil works including the planning, management and execution of all plant shutdowns. The Darwin LNG facility will produce and sell liquefied natural gas from the Bayu-Undan gas field, a joint development project for Australia and East Timor.
